## Bedford 2844 Donates Safety Glasses to Area Schools

Modeling Virginia Elks Safety Glasses are (L to R): Students Trevor Fox and Hannah Steele, Teachers David Melton and Thomas Fox, Assistant Principal Kelly Miller, and Bedford 2844 PER John Owen

Bedford Elks Lodge 2844 donated Virginia Elks Safety Glasses to four area schools. Liberty High School received 204 glasses; Bedford Science and Technology Center received 203 glasses, Staunton River High School, 50 glasses, and Jefferson Forest, 40 glasses.

Committee Chairperson- for the Safety Glasses was Molly Croft and her team included Doris and Robert Foutz, Sally Winoker and Caroline Duus.

In an interesting aside, even though Elks know the glasses are tested and can be used with confidence for more activities than just shop class, one student shared how they were tested in class by making the glasses stationary on a table and then shot the glasses from a distance with a nail gun. This was done with the supervision of the teacher. The glasses passed the test, leaving only a tiny scratch on the lens.
