Lynchburg 321 Gives Safety Glasses to Campbell County Schools

On November 16 I met with Carol Cooper who is employed at Campbell County Technical Center and was the first to respond to my phone calls about the Safety Glasses. I also met with Principal Jon Hardie who gave me a tour of their facility.

Automotive Service Technology Instructor Michael Myers explained how excited he was to have enough glasses to enable each student to be responsible for their own glasses. This will help in developing good safety habits during sessions in class. Then they can take them home at the end of the year or to wherever they work.

They are so thankful that the glasses are of good quality as expected by

OSHA.

The glasses will be used in Electrical, Automotive Mechanics, and Automotive Body work classes.
