VEYC Dining Hall Roof Project Going Very Well!

The long awaited and much needed replacement of the Dining Hall roof at the Youth Camp is finally under way!

The roof replacement was made possible by the generous donations of many individuals and Lodges from all across the state.

The work got started on Sept. 16, 2014, and is expected to be completed by the end of the month.

A nice cool spell put a smile on the face of the roofers who are accustomed to working on extremely hot summer days. There was an earlier worry that the roofers might have to work shorter days due to the extreme heat on the roof but Mother Nature smiled on them for this job. Phillips Roofing & Siding from Covington VA is the company performing the roof replacement and, from all reports, is doing a great job for us.

The existing roof had developed several troublesome leaks in the past few years and the new roof should eliminate those problems for several years to come. There is no record indicating when the existing roof was put in place but it had obviously come to the end of its useful life span and was long overdue for replacement.

A big **“THANK YOU!”** to everyone who helped to make it happen!
