## **VEYC Note: ATTENTION LODGES: CAMPER IMMUNIZATION RECORDS**

**In the first week of our camping season several children arrived and we found that their IMMUNIZATION RECORDS were not completed. Please check all of your camp applications to assure that the information is included before sending the campers. Advise the parents that a copy of their child's IMMUNIZATION RECORD from their family doctor is acceptable in lieu of filling out this particular part of the form.**

**The information is important when needed to offer treatment to the child as well as protecting the other campers in attendance.**

**Our camp staff is very busy attending to all of the campers and should not have to spend time calling the parents to get the information.**

**Lodges should ASSURE that the information is complete when reviewing the applications and before the child arrives at our camp.**

**PLEASE CHECK ALL APPLICATIONS TO MAKE SURE THE INFORMATION IS INCLUDED.**

**THANKS, IN ADVANCE, FOR YOUR ASSISTANCE.**
